

MEMBERSHIP AGREEMENT

Finance for Tomorrow's objective is to **make green and sustainable finance a key driving force** in the development of the Paris Financial Center, in order to position it as the international hub on these issues. The development of green & sustainable finance should contribute to **redirecting capital flows towards a low-carbon and inclusive economy,** in accordance with the Paris Agreement and the UN's Sustainable Development Objectives (SDGs).

STRATEGIC FOCUS

- **Supporting** specific initiatives and projects launched by members and adding value to their green & sustainable investment and financing operations;
- Creating meeting places and synergies to boost the development of the Paris Financial Center:
- Producing and, more generally, promoting and sharing relevant information for French green & sustainable finance players;
- Making Paris an international green & sustainable finance hub for financial sector players;
- Developing national and international partnerships to increase the impact of green & sustainable finance.

FINANCE FOR TOMORROW MEMBERSHIP INVOLVES

- Participating in a dynamic cooperative and collaborative Financial Center alongside other players campaigning for green & sustainable finance;
- **Contributing** to the roadmap, reflexions and actions implemented in France, Europe and internationally;
- **Integrating** a network of actively committed players from the French green & sustainable finance network;
- **Taking** part in international actions and networking events;
- Benefiting from the national and international expansion of a committed Financial Center and from brand visibility to promote actions more actively.

FINANCE FOR TOMORROW MEMBERS COMIT TO:

- **Support** Finance for Tomorrow and actively contribute, as a function of means and skills available, to the projects and to the outreach of the initiative within their own sphere of influence;
- Contribute to the reallocation of financing and investments, and promote the development of innovative green & sustainable instruments, operations, vehicles and products;
- Promote R&D and innovation in the field of green & sustainable finance;
- **Adopt** a collaborative approach and contribute towards promoting the expertise of the Paris Financial Center's players.
